

Church and Community Worker

Placement Site Application

Church and Community Workers (CCWs) are missionaries of Global Ministries responding to God's call to uplift the disenfranchised and poor in rural and urban areas in the United States.

CCWs facilitate communication and collaboration to equip churches to recognize and respond to needs in their community. They serve as a bridge between these two groups, working to change the social inequities of poverty, racial injustice and resource restriction.

The request of a Church and Community Worker is an effort that requires collaboration and negotiation on the part of all local partners at the project/ministry level to annual conference leadership to complete this preliminary requirement. This collaboration reflects the essential nature of Church and Community ministry, the four-way partnership between Global Ministries, annual conference, project partners and the CCW.
